Boarding

1 Dog

2 Dogs

3 Dogs

A One-time Complimentary Get Acquainted Visit is required before a first-time boarding reservation can be confirmed.

You Lucky Dog approval is required to board multiple dogs in the same suite. The dogs must live, eat, and sleep together at home. Suite sharing is sometimes recommended when pets will be happier and more relaxed in the same suite, and there is no concern for fighting.

After an enjoyable day of frolic and fun with their favorite play buddies and our pet care team, your pup will settle into their very own private suite for an evening of calm and comfort. Here they have a comfy/cozy bed and are surrounded by their favorite toys and treats. They have fresh water and a place to eat dinner in private while still sharing a room with and surrounded by their favorite furry friends. There is calming music playing and the temperature is perfect. Your pooch is served dinner around 6pm and is again given a play and potty break after dinner and before bedtime. In addition, rest assured that there is always a caring pet care professional onsite throughout the day and night (24/7/365).
